EXPERIENCE

Assistant Clinical Research Coordinator   2015 - Present
Stanford University | Stanford, CA

- Managed obtaining research consent from surgical patients for ***3 Operating Room locations*** in Stanford Hospital
- Directly spoke with patients prior to surgery about the possibility of Tissue Donation for medical research
- Answered any questions from patients about the post-surgical process, research process, and confidentiality
- Comforted patients who were anxious, scared, or stressed out about surgery.
- Developed strong relationships with nurses and clinical staff to help patients feel at ease
- Maintained clear tracking of consents through OnCore database
- Managed multiple consents and tracking of research trials for various Stanford researchers
  <u>Key Accomplishments:</u>
- Significantly increased patient consent enrollment year-over-year
- Worked with multiple clinical staff to consent within different Stanford Clinics

Health Specialist   2007 - 2008
The Unity Council | Oakland, CA

- Work with underserved communities in the Oakland area particularly focusing on families with children from 0-3 years of age
- Educate parents and preschool age children about Health topics
- Answer questions and give lectures about preschool age health issues including hearing loss, SIDS, lead poisoning and vaccinations.
- Closely monitoring and recording health information of children including data from physical exams and immunization records
- Using ChildPlus database system to access and maintain health information
